CONNAIS-TU ? LES BÉBÉS ANIMAUX
Board books & Picture books - From 3 years onwards

Olivier Le Gall

THE BOOK

These small non-fiction books are kept simple for the very young and focus on 10 animals from the same habitat, one per double-page spread:

On the left-hand page:

- the animal is shown full-length and annotated with all its characteristics.

- then three different or closely related species are depicted.

The page is presented as informative non-fiction.

On the right-hand page:

- 4 comic book-style text boxes of extra information, which is still very short and simple but is given humorous treatment graphically. They bring the animal to life in its habitat.
- the book ends with a double-page spread featuring 6 other animals from the same habitat and a beautiful image bringing together all the animals in the book in their natural setting.

MARKETABLE FEATURES

- Each DPS of this small hardcover book focuses on an animal either by habitat (farm, polar regions) or by characteristic (babies).
- 10 featured animals (plus 6 "and also").
- The full-length image of the animal is annotated, and key information is presented in informative, illustrated text boxes.
- Very short text in each separate frame.
- The images, all in colour, are simple, understandable and reassuring.
- Olivier Le Gall's illustrations combine accuracy with humour.
- A large image of all the animals together in their natural habitat appears on the last page.

THE BOOK
