### *The all-in-one books to succeed in preschool*

- The well-known Montessori pedagogy is highly recommended for young pupils: the learning of basic skills is fundamental for their future and children need to be self-confident and autonomous at school as early as possible.
- Easy and progressive activities: learn to read and write, to sort, rank, count and get the first notions in mathematics, to discover the world.
- In each volume maths, language, graphism, world discovery are part of these educational adventures!

From 5 years onwards

## Efficient activity books inspired by the Montessori & Singapore method of maths learning

- To succeed in maths, no need to have a special skill: just follow one of the most efficient methods, created in Singapore.
- A progressive improvement based on concrete reality and giving its meaning to each notion.
- It starts from things the child can manipulate, then moves on to image and representation before ending in abstraction.

**Format:** 215 x 285 mm

**Pages:** 144

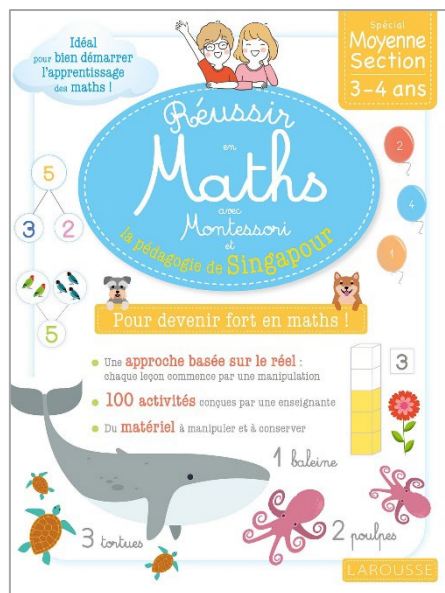

**Binding:** soft cover

**Author(s):** Delphine Urvoy

**Retail price:** 11.95 €

### Previous titles sold:

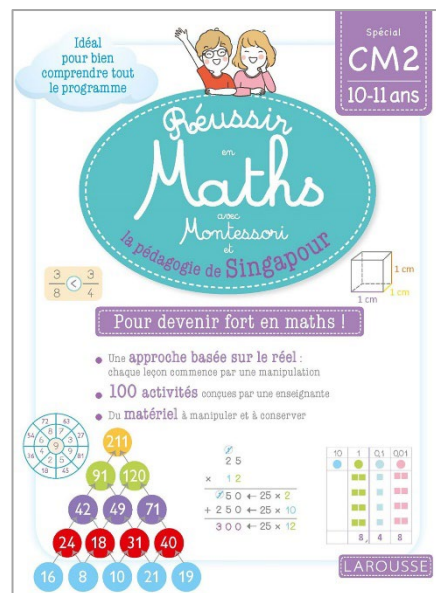

Russian, Chinese simpl., Polish, Bulgarian, Spanish, Greek, Czech, Catalan.
